Ruth of Naples, FL says:

*"I first saw Master Hong for lymphedema – major swelling in both arms and the trunk of my body. He had several spot-on messages for me regarding my life and health to help me heal my mind, and provided me with healing foods, herbs and exercises. Master Hong was the ONLY person who reduced my swelling from the lymphedema.*

*This year I battled the flu and bronchitis, with a terrible dry, deep cough (12 attacks a day), for 33 days. I did a remote healing session with Master Hong, and my cough and fever were completely gone the next morning. Master Hong's immense expertise of western and eastern medicine, coupled with his incredible healing energies and skill, make him an extraordinary Grandmaster of qi gong and healing. I am blessed and thankful for Master Hong Liu!"*
